

FPT-OTB-S48

Passive Optical Terminal Box

Fiber optic drop cable terminal box is used as a termination point for the feeder cable to connect with drop cable.

The fiber splicing, splitting, distribution can be done in this box, and meanwhile it provides solid protection and management for the FTTx network building.

- Standard size, light weight and reasonable enclosed structure
- Clamping for feeder cable and drop cable, fiber splicing, fixation, storage, distribution
- Cable, pigtails, patch cords are running through its own path without disturbing each other
- Suitable for SC, LC, FC, ST ... etc. adapters and can load PLC splitter
- Distribution panel can be flipped up, easy for maintenance and installation
- Indoor & outdoor wall mounted, pole mounted application

PRODUCT DETAILS :

- Box material : ABS plastic
Box size (mm) : 380×355×140,5
Fiber tray capacity : 144 core
Weight (kg) : -
Protection grade : IP65
