

Micro-cable storage bag

Size	Art.Nr.
S and L	28-EE05/0,5-3,5

TASKET LIGHT

- The micro-cable storage bag is used inside manholes to protect the micro-cable overlength and to keep it secure and organized.
- It is made of a fiberglass fabric to prevent rodent attacks.
- The bag has a high-resistance Velcro opening at the top to protect the entrance to the bag.
- Two metal rings allow easy mounting of the bag on wall supports. At the front, the bag has a transparent envelop to host the identification label of the cable / customer.

Characteristics :

- Dimensions: 42 x 42 x 1,5 cm and 61 x 63 x 1,5cm
- Fabric thickness: 0,77 mm
- Cable storage (5/8 mm): 75 m and 50m
- Color: grey
- Weight (empty): 1.7 kg and 0,75kg
